Wayne Superior Court will convene in this city next Monday week, January 22nd. Judge Ward will preside. There are a number of blind tiger cases on the calendar and it is said Judge Ward is a terror to "tigers."

One of the enjoyable social occasions of the New Year was the "Smoker" given in the armory of Co. B. by its popular and very efficient commander, Captain, H. C. Schiedt, who will long be pleasantly remembered by all whose good fortune it was to be of the gay party.

It was a pleasure to greet in the city today Hon. E. J. Hill, formerly of the Bar of this city, and one time U. S. Consul to Montevideo, but now a successful lawyer of San Francisco, Cal. He is on a Christmas visit to his old home in Duplin county, where there was a recent reunion of his distinguished family.

The contract has been let for the construction of the new A. & N. C. passenger depot at Kinston, and the work will be commenced at once. The new depot is to be built according to the plans published in the paper some time ago, only larger and more commodious, and will be equipped with all modern conveniences.

Ella Gregory, a young negro woman who has been under suspicion for two years, was arrested Saturday night for running a blind tiger and being drunk. She was fined \$100 and bound over to court on a \$200 bond, which she could not give, and was placed in jail. The arrest was made by officer Smith.

Two negroes whose names we did not learn, became involved in a quarrel in the northern part of the city Saturday night, and one of the negroes pulled his gun and fired deliberately at the other three times in rapid succession, but each ball went wild. The negro hollered, and thinking he had struck his antagonist the other negro fled.

Mr. K. E. Bizzell, one of Goldsboro's substantial business men and progressive spirits, of the well-known and reliable East Centre street shoe firm of Bizzell Bros., continues to add permanent and valuable improvements to his property on John street. He today broke ground for the erection of another commodious brick store, of modern design and concrete floor.

Mr. and Mrs. W. A. Denmark celebrated this week with a family reunion and substantial dinner their "Silver Anniversary" at their home on East Elm street, their son Mr. Ed Denmark, Superintendent of the Southern Cotton Oil Company's mill at Fayetteville, coming home for the happy occasion. The Argus in congratulatory words of felicitous and cordial good wishes.

Dr. Geo. H. Kirby, of the corps of physicians of the New York State Hospital on Ward's Island, another one of those great Goldsboro boys who is achieving success in the world's brisk competition, sailed for Europe to spend a year in special study in Munich and Paris, still retaining his position as above. His hosts of friends in this city wish him "bon voyage."

The Odd Fellows have let the contract for their handsome new lodge

building, on their valuable property on John street, to Messrs. Porter & Godwin, the contractors, of this city. The building will be a three-story structure, and will cost \$18,000. The first floor will be used as stores, the second floor for offices and the third floor as their lodge room.

The Argus is indebted to Messrs. Hobbs & Pike, the plumbers and bicycles dealers, for one of their handsome calendars.

Our efficient County Treasurer, Mr. J. W. Thompson, accompanied by his daughter, Miss Pauline, left today on a two weeks' visit to Florida.

John Atkinson, a well-known negro loafer, was up before the Mayor this morning for vagrancy and whipping a negro woman. He was sentenced to the roads for 30 days in each case.

Some of our streets look quite vacant where the elm trees have been removed, which is fast being done in different parts of the city. In some places they are being replaced by oaks which make a very nice shade.

Our sister town Kinston was visited by a \$2,000 fire about 9 o'clock last night. The residence damaged belonged to Mr. R. L. Crisp and was one of the handsomest in the city. The loss was fully covered by insurance.

Louisa Kornegay, wife of Ed. Kornegay, a well-known and industrious colored man of this city, dropped dead at the home of a neighbor, where she was visiting, this afternoon a few minutes before 4 o'clock. She was about 50 years of age and was highly respected by all who knew her. Her death was due to heart failure.

Looking forward to the erection of a Union Passenger Depot in this city, sometime in the near future, and in order to be in time to see one else should get ahead in a like scheme, a Transportation Company has been organized here for the transfer of freight and baggage as well as passengers. As soon as arrangements can be perfected several handsome trucks and nice horses will be placed on the streets for the convenience of the public. Full particulars will be given later. This is only one of many new enterprises that will follow the erection of our new depot. Goldsboro will then take on new life and progress as never before in her history. Indeed the erection of this depot means something for Goldsboro.

Rev. Edward Mack, after spending the holidays with Dr. and Mrs. M. E. Robinson, left yesterday for Cincinnati.

Mr. Richard Spicer, who is so popular with his many young friends in this city, has gone to Davidson College to take the course of study in that splendid institution of learning.

Dr. Faison to come quick, grandpa is dying." Little Edwin, lying on his trundle bed heard the call, too, and springing up he rushed out, bareheaded, barefooted, in his night clothes, into the bitter cold and across the lawn to the hospital and gave the alarm. Dr. Faison and Dr. Clara Jones, the assistant physicians of the hospital, hastened to his relief, but to no avail. His sons, Dr. Robt. Miller and Mr. C. B. Miller in the city here were hastily summoned on the phone and hurried to the bedside of their already dead parent. His daughters in New York were also notified by phone about 11 o'clock last night. As was also his daughter, Mrs. Will B. Hill, in Danville, and his sons Prof. John C. Miller, at Morganton, and Frank M. Miller, in Bayard, New Mexico, the last too far away to reach here in time for the funeral, which will be held from St. Paul M. E. Church, of which he was a most devout and exemplary member, to-morrow afternoon at 3:30 o'clock.

In their sudden bereavement the stricken family have the tenderest sympathy of our entire people, and the heritage of a spotless life to give them hope of a glorious immortality and the cheering assurance that they shall see him again face to face.

EASTERN NORTH CAROLINA.

THE MARKET GARDEN OF THE SOUTH.

Eastern North Carolina is simply in the "Sun Burst" Period of a Prosperity That is Most Promising.

One of the most attractive railroad publications of the season is a booklet just issued by the Atlantic & North Carolina Railroad, directing attention to the splendid agricultural possibilities of the country through which its line runs—a section that has been appropriately called "The Market Garden of the South." The name is suggestive of fertile lands, of frequent streams, of growing crops and prosperous homes, of peace and plenty. These anticipations seem to be fully justified by the facts.

The territory under consideration, the Chatahoque Tradersman has declared "one of the most fertile, not only in this country, but probably in the world." It is known as the tide-water section of North Carolina—the lowlands lying parallel to the Atlantic Coast—from which comes such an abundance and variety of products as can hardly be equalled anywhere else in the Union.

During the period from Dec. 1st, until April, 1st, and frequently for a longer time, it supplies a very large proportion of the vegetables consumed in the New England and the Middle Atlantic States, and even in the Northwest, while from the standpoint of the small fruit crop it is of utmost importance. The last census showed that fully one fifth of all the vegetable growers in the United States resided in the South, and during 1900 southern farmers devoted 267,000 acres of cultivated land to vegetables alone. Of this area no less than 32,000 acres were in North Carolina.

With such a broad expanse of territory devoted to this division of farming, it is not surprising that the returns to the farmers have been very large, as trucking is a most profitable industry. In a word, so wonderful is the soil and so favorable the climate of this tide-water section, that North Carolina leads all the states of the Union in the extent and variety of vegetables grown.

In the growth of fine strawberries it takes first place, also ranks first in the production of lettuce, first in huckleberries, third in melons and canteloupes, and is rapidly climbing to the top in the production of Irish potatoes.

The nine counties embraced in the territory traversed by the Atlantic & North Carolina Railroad have an annual harvest of about 250,000 bushels of Sweet potatoes each. Not only are vegetables raised for the market in immense quantities and at great varieties, but the agricultural products of the territory under consideration comprise cotton, tobacco, corn, wheat, oats, sugar cane, peanuts and melons.

Both cotton and corn are staple crops of all this area. Tobacco, likewise, is an important product. Nearly the whole region is underlain by a very valuable fertilizer material abounding in sufficient quantity to keep the land productive for centuries to come.

KING-FOSHEE.

North Carolinian Wins a Fair Bride in South Carolina.

Our readers will be interested in the following notice of the marriage of one of Goldsboro's most popular young men, Mr. Allen B. King, a salesman in the shoe store of Messrs. Bizzell Bros., who has made many warm friends during his stay in our city:

Coronaca, S. C., Jan. 1.—A lovely mid-winter wedding which occurred on Wednesday, December 27th, united Miss Annie Elizabeth Foshee and Allen B. King, of Goldsboro, N. C. The wedding was preceded by a brilliant reception Tuesday evening, at the home of the bride's parents Mr. and Mrs. J. M. Dudley Foshee, of Coronaca.

The decorative scheme chosen for the wedding was carried out in the embellishment of the home for this occasion the parlors, hall and dining-room being richly ornamented with holly, ferns, palms, potted plants and white chrysanthemums. The long table, from which seventy-five guests were served with an elaborate supper, was overlaid with battenberg lace, and ornamented with cut glass cylinders of flowers, with wedding bells and with snowy cakes of almost every design.

Miss Foshee wore for the reception an exquisite gown of white crepe de chine, trimmed in chiffon, medallions and applique. The receiving party included Miss Foshee, Mr. King, Mr. and Mrs. George W. Foshee, Memphis, Tenn., Mr. and Mrs. Stanford Smith, Memphis, Tenn., and Mr. and Mrs. Charles F. Harris.

The wedding was solemnized at the Methodist church in Coronaca, before a brilliant assemblage of guests. The church was darkened for the occasion and lavishly decorated with ferns, palms, cedars, holly, mistletoe, pine, snowy cotton sprinkled with diamond dust and festoons of green. When lighted with hundreds of tiny tapers the altar presented an exceedingly realistic improvised snow scene.

The wedding march was rendered by Mrs. Alma Stewart, The Rev. S. A. Vaughan has the officiating clergyman. In the bride party were the ushers: Claude Foshee, St. Paul; Alonzo Keller, Gretna; Dr. W. P. Turner, Coronaca, and Troy Joyce, Coronaca; groomsmen, Full R. W. Foshee, St. Paul; and George W. Foshee, Memphis; Miss Myrtle Yates, of Wilmington, Maid of Honor; Mrs. Sanford Smith, Memphis, matron of honor. The groom and his best man, Mr. Emer Barrett, of Kinston, and the bride, who entered with her brother, J. Frank Foshee, of Winooski.

Miss Foshee wore for the service her going away gown of green broad cloth with hat en suite and carried a shower bouquet of ferns, ribbons and white chrysanthemums.

Mr. and Mrs. King left immediately after the ceremony for Goldsboro, N. C., where they are to reside. Many handsome presents of silver, cut glass, and china attested the high regard in which the bride was held by a large circle of friends.

The Argus, in company with all our people, wish the happy young couple a life of happiness and prosperity.

HAD NOT WALKED FOR 11 MONTHS

Terrible Sore on Ankle Caused Awful Suffering—Could Not Sleep nor Rest—Physician Said Leg Would Have to Be Amputated.

CURED BY CUTICURA IN SIX WEEKS

"I had a terrible sore on my ankle and had not walked any for eleven months. I tried nearly everything without any benefit and had a doctor, but he didn't seem to do any good. He said I would have to have my leg taken off, and that I would never walk again. I suffered a awful, and I thought there was no rest for me, but as soon as I began to use Cuticura Soap and Ointment, I felt a relief. I washed the ankle with warm water and Cuticura Soap and then applied Cuticura Ointment to the affected part, and laid a cloth over the sore to hold it in place. After two weeks I could walk around in my room red and sore, and in six weeks' time my ankle was entirely cured and I was walking around out of doors. I am enjoying perfect health and have gone to work and feel as well as I ever did in my life. So I know that the Cuticura Remedies are the best in the world."

"Cuticura was recommended to me by a lady who had used it when her baby's head was so full of sores he could not lie down. She had set him up in her arms to sleep. (Signed) Mrs. Mary Dickerson, Louisville, C. H. Va., April 22, 1907."

IT IS NOW A CERTAINITY! UNION PASSENGER DEPOT FOR GOLDSBORO ASSURED.

LOCATION FOR THE DEPOT NOW BEING CONSIDERED. Corporation Commission and Railroad Officials Agree Upon a Union Depot In Joint Conference today.

As per arrangement among themselves, and not given to our citizens, the Corporation Commission, in full membership, Messrs. McNeill, Chairman, Rogers and Biddlingfield, with their clerk and official stenographer, and the general managers of the three railroads interested, Messrs. W. N. Ryall, of the Atlantic Coast Line; H. B. Spencer, of the Southern, and R. P. Foster, of the Atlantic and North Carolina, together with the Board of City Aldermen, met in joint session in this city at 11 o'clock this morning, and the Commission organized itself into a court of enquiry as to the contention for a Union Passenger Depot for Goldsboro.

Chairman McNeill in calling the meeting to order stated that the Commission had decided upon a Union Passenger Station for the city and that the Railroads had agreed to erect one—unanimously and commensurate to the needs of the situation—and that work on same would begin as soon as plans and location could be determined upon.

In consequence of this harmonious and speedy adjustment of what had seemed to the general public would be a perplexing and extended controversy, the railroads, at the request of their attorney, Mr. F. A. Daniels, and readily conceded to by the Board of City Aldermen, through Mayor Hood as their spokesman, and by the two elements of our citizens at variance as to location, were given ninety days by the Commission in which to confer among themselves and determine definitely upon the location for the station, and the Commission then adjourned.

Subsequently the several railroad officials were driven around the city and contiguous territory that they might reconnoitre the situation and be thoroughly conversant with all the ground when conferring together for final action.

We go forward.

A TRIP TO THE COUNTRY.

Only a Country Boy Couped Up Subsequently "In Town" Knows How to Appreciate It.

Goldsboro is full of progressive, hustling, successful business men who were born and reared in the country—in fact, at a cursory glance over the field, we believe a majority of the business and even professional men of the community are natives of the country.

This, doubtless, accounts for that sturdy endurance—that circumspectness of venture, that integrity of purpose and conduct that characterize Goldsboro's business men, and out of which has grown the Best Town in the State.

But we have diverted from the purpose with which we headed this article. We started out to say that we drove far into the country a few days ago with Mr. B. G. Thompson, of the well-known and affluent business firm of Best & Thompson, of this city, both country boys—as well as "good drivers"—and all three of us country boys together, and in the roundabout we took in many old scenes and haunts of our boyhood halcyon days, and what a myriad of reminiscences the old familiar fields and woods and a by-paths called up! There is no one so capable of appreciating a trip into the country as the man born there and transplanted in after years in the midst of city life.

There is such a contrast in the great words and fields to the busy streets of the city that you forget the cares and struggles of your daily existence and give yourself over wholly to the new spell that nature weaves around you. The hills, forests and fields are just as they were in boyhood, except that time and memory seem to have mellowed them with some strange enchantment.

Universal peace and contentment dwell among the silent hills and the mellowing sunshine frolics with bare trees and crystal brooks invite to linger forever.

The charm is wonderful, and surrounded by nature's simplicities you feel renewed in spirit and return to the exacting tasks of every day life in the town again with fresh vigor and with the consciousness that life is not all vanity and that God still dwells in the simple corners on the earth.

OLD SORES SAP THE VITALITY AND UNDERMINE THE HEALTH.

Old Sores that refuse to heal are a constant menace to health. They sap the vitality and undermine the constitution by draining the system of its very life fluids, and those afflicted with one of these ulcers grow despondent and almost desperate as one treatment after another fails. They patiently apply salves, washes, plasters, etc., but in spite of all these the sores refuse to heal and eat deeper into the surrounding flesh, destroying the tissues and growing to be a festering, inflamed and angry mass. The source of the trouble is in the blood. This vital fluid is filled with impurities and poisons which are constantly being discharged into the sore or ulcer, making it impossible for the place to heal. It will not do to depend on external applications for a cure, because they do not reach the real cause, and valuable time is lost experimenting with such treatment, the most they can do is to keep the ulcer clean. Any sore that will not heal is dangerous, for the reason that it may have the deadly germs of Cancer behind it. A cure can be brought about only through a remedy that can change the quality of the blood, and this is what S. S. S. does. It goes to the very bottom of the trouble, drives out the poisons and germs with which it is filled, and purifies and builds up the entire circulation. By the use of S. S. S. the sore is supplied with new, rich blood which corrects the trouble, soon stops the discharge, and allows the place to heal naturally and permanently. S. S. S. also reinvigorates the entire system, where the constitution has been depleted or broken down it quickly builds it up and restores perfect health. Write for our special book on sores and ulcers, and any medical advice you are in need of; no charge for either.
